

Jim's Summary

June 18, 2017

Hi all,

The Lions Club held their regular meeting & board meeting 6/21.

Bob reported that the 38th load of recycled material was shipped out this last week which brings the total to 1,341,000 pounds we have kept out of the landfill & made into cellulose insulation.

A get-well card was circulated for all to sign for Willy who had surgery 6/12.

The Lions Club family picnic is scheduled for Aug. 9. Scholarship check will be presented to recipients and club awards will be presented – mark your calendars now.

New officers were installed by Vice District Governor Judy Stone – they will assume their new duties starting Aug. 1.

July 4th parade - \$60.00 was budgeted for candy.

Float will be assembled approx.. 7/2 at Jim's

Please plan on riding on the float (incl. family members)

The request by the Geochasing Club to use the grills was declined.

Some member purchased leftovers from the Pancake Day – John will add that onto your next billing.

Selling peaches project was discussed – it had limited interest, mostly because members would have to do direct sales which is not the norm for this club. It might be a project for next year but for this year sales should have already been started and their still needs logistic issues looked at.

Selling walking tacos, etc. at Lincoln Highway Days (Remax balloon rides) looks like a workable project. Jim will check with Lynn Scarlett at Chamber office to get requirements / details and pass on to Elijah & Terrance.

Paul is responsible for the June 28 program, Willy July 12.

cont. on page 2

There has been request to purchase Lions Club shirts. Judy Stone suggested purchasing shirts & having them embroidered would be much cheaper than purchasing from Lions International. I have the lady's info that does the embordering

Jim presented a rough draft for a sign-up schedule for the recycle trailer. Currently a few members are doing all the duties week after week. It would be good if more of the membership helped with this project. See attached.

Have a good day
Jim
